PCT/ES2004/000084

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

1. In claim 4, the expression "said recovery means consist of ..." is not clear because the recovery means are defined for the first time in claim 6 (EPC Article 84). For the present claim 4 to be clear, it should be dependent on the present claim 6 and the claims should be renumbered.
2. Since no first and second segments have been previously defined in claim 1, the definition of a third segment in claim 8 is not clear (EPC Article 84).
3. Claim 10 makes reference to the preceding claims and mentions a third segment. However, a third segment is defined for the first time in claim 8. As a result, the reference in claim 10 to claims 1-7 is not clear (EPC Article 84).
